At MEASURING ENGINEER GROUP PERU S.A.C., we are a company dedicated to the development of projects and comprehensive engineering and construction solutions (minor works); as well as consultancy, supervision, measurement services, and the acquisition and commercialization of equipment, products, and materials in the telecommunications sector. We are committed to continuous improvement in order to meet the needs of our clients and stakeholders through the quality of our services, environmental preservation, and adherence to our principles of impartiality, transparency, and ethical conduct.

Therefore, we commit to:

- Continuously improve the performance of our integrated management system through periodic reviews, monitoring, and constant updates to achieve our objectives and ensure its effectiveness.
- Comply with the requirements of our clients and other stakeholders, as well as legal and other applicable obligations related to quality, environmental protection, and anti-bribery management.
- Promote environmental protection and pollution prevention through the effective implementation of operational controls.
- Fully meet the needs and expectations of our clients and stakeholders by focusing on excellence and the continuous improvement of our processes.
- Prohibit and prevent any form of bribery within the organization, demonstrating our commitment to responsibility by fostering an ethical culture and strengthening stakeholder trust in the way we conduct our activities.
- Ensure that no employee of the organization suffers retaliation, discrimination, or disciplinary action for raising concerns in good faith or based on a reasonable belief, and doing so confidentially.
- Enforce the provisions of our Code of Ethics, without prejudice to any legal consequences that may apply to employees for actions, behaviors, or omissions that violate this policy regarding bribery and corruption.
- Appoint the anti-bribery compliance function, ensuring it is provided with resources, independence, and authority to offer advice and guidance to personnel ***and stakeholders***, ensure that the anti-bribery management system conforms to the requirements, oversee the organization's design of the anti-bribery management system, and report on its performance
